Internship Offer Letter

Student Name : Chandaka Harsha Vardhan
Stream : B.Tech
Branch : B.Tech(Computer Science and Engineering)
Institute Name : Maharaj Vijayaram Gajapathi Raj College of Engineering (Autonomous)
Internship Domain : Mobile App Development with React Native
Internship Duration : June 2026 - August 2026
AICTE Student ID : STU68db60fce23ae1759207676

We are pleased to inform you that you have been selected for the 8-Week **AICTE – EduSkills Virtual Internship Program**.

During this internship, you will learn and demonstrate industry-relevant skills that will enhance your employability and strengthen your confidence in the subject area.

The program is designed to provide structured learning combined with practical exposure.

Internship Structure & Evaluation:

- The internship will follow a **week-wise structured learning plan**.
- You will be required to complete **weekly assessments** to track your progress and understanding.
- Certain modules will require submission of **project documentation and assignments**.
- In the final week, you must appear for a **Final Assessment Test**.
- The final grade will be based on your overall performance, including weekly assessments, project submissions, and the final test.

Upon successful completion of all required steps and assessments, you will be awarded a **Virtual Internship Certificate**.

Please note that this offer letter will be considered valid only after the successful completion of the internship program and fulfillment of all assessment requirements, including obtaining the final completion certificate. Without the final completion certificate, this offer letter shall not be treated as a valid document for any official purpose.

The week wise Structure of the Internship is as Follows:

Week	Module	Description
Week 1	Introduction to UI/UX & Visual Design Basics	Understand UI vs UX, design thinking principles, typography, color theory, and layout fundamentals.
Week 2	Figma Fundamentals	Learn Figma interface, tools, components, and collaborative design workflows.
Week 3	User Research & Empathy	Conduct user research, build personas, and apply empathy-driven design decisions.
Week 4	Information Architecture & User Flows	Organize content structures and design intuitive user journeys and navigation systems.
Week 5	Wireframing & Layout Design	Create low-fidelity wireframes to define structure, layout, and functionality of digital products.
Week 6	UI Design & Prototyping	Transform wireframes into high-fidelity designs and build interactive prototypes.
Week 7	Usability Testing & Design Systems	Evaluate designs through usability testing and create scalable design systems and component libraries.
Week 8	Accessibility, Animation & Advanced Design & Capstone Project	Design inclusive interfaces, implement microinteractions, UI animations, and advanced visual branding techniques.
Internship Grade Point Assessment		

Note: There is no stipend associated with this internship.

We congratulate you on your selection and wish you a successful learning journey.
